### Overall Goal

- Public policy requirements and recommendations about climate actions.
- Assessment of advances, setbacks, and gaps and setting up demands, according to the Catholic Social Teaching climate justice concerns.

### Concept

Social Catholic Teaching (SCT) calls us to “accelerate the just energy transition” in the key of Integral Ecology, changing international policies. This event is part of a series of Catholic advocacy actions on governments to make bold decisions about climate change mitigation, just energy transition, and integral human development. Under Pope Francis’ leadership and previous global grassroots manifestos, we will deliver a joint letter to the COP 28 Presidency.
